to NAMWIANGA-L

Whoopee! The rainy season has made a good start and we hope it continues like this. Two years ago we had a drought, and last year the rains were poor. We are praying for good rains this year and abundant harvest.

I love it when the flowers and wild fruit start coming out. Tons of these little white flowers that smell like orange blossoms.

These small wild fruit are called Muumbu. They turn black when they are ripe. Little boys around here know where all these fruit are. I rarely beat them to a snack!

And the flowering trees around the mission are in full splendor!

Covid-19 has blocked all our big medical and evangelistic outreaches that involved folks travelling here from USA and Canada.

But we are about to send a very small team of locals to Western Province. I am hoping they will send me lots of pictures and stories to forward on to you! Below is their planned schedule:

They plan to leave Namwianga on 8th November, and drive all the way to Luampa same day. These are the places and dates they plan to visit. Some we have visited before on Westreach. Others are places requesting that the team visits them and helps them open a new congregation. So, on Sundays the team plans to split up and visit two or three congregations.

- | | |
|----------------------------|------------------------------------|
| 1. 9th November -Kankulu | 8. 16th November-Kasukiya |
| 2. 10th November- Mbundu | 9. 17th November- Katondo |
| 3. 11th November-Nyambi 2 | 10. 18th November-Kavumbu |
| 4. 12th November- Lemvu | 11. 19th November- Mihozhi |
| 5. 13th November- Nyambi 1 | 12. 20th November-Nakayembe School |
| 6. 14th November-Namando | 13. 21st November-Nakayembe Lizovu |
| 7. 15th November-Kanyenzi | 14. 22nd November-Shikuna |

You guys stay safe over there! Here in Zambia Covid-19 is fading away.
Roy
